

STAY READY FOR ACTION

Confidential Support for Deputies

Deputies deal with unique stressors that many other professions don't encounter. Erratic hours and sleep schedules, constant functioning at a heightened state of alertness, and working in an environment where crime, violence, and human tragedy are pervasive can take a toll on their mental health. The SupportLinc employee assistance program (EAP) provides expert referrals and consultation with experienced licensed counselors. Deputies can also access toolkits, tip sheets and other materials to help them cope with a variety of concerns, such as:

- Stress
- Dependent Care
- Legal Matters
- Substance Abuse
- Emotional Health
- PTSD
- Financial Fitness
- Marital/Family
- Anger Management
- Work-Life Balance

To access care 24/7/365, contact SupportLinc today for confidential guidance and resources to help promote overall wellbeing.

SUPPORT FOR EVERYDAY ISSUES. EVERY DAY.
